## Manage costs effectively and significantly increase your profits with these new universal compatible color developer units from Katun!

Katun is very pleased to introduce Katun Performance™ compatible color developer units for a wide range of newer Konica Minolta color applications. These developer units offer OEM-equivalent performance at a significantly lower cost – providing dealers with an outstanding profit opportunity for this growing color machine base.

### Benefits:

#### ◆ Cost-per-Copy Savings and Customer Satisfaction

Dealers choosing these Katun Performance™ compatible color developer units will see significant cost-per-copy savings versus the OEM developer units for these machines, improving overall profitability without compromising quality.

#### ◆ Reduce Inventory and Manage Costs

With only one color developer unit for two popular Konica Minolta series machines, dealers will be able to simplify inventory management and reduce inventory costs.

#### ◆ OEM-Equivalent Performance and Easy Installation

During laboratory testing, these Katun Performance™ developer units produced image density, life, and overall performance equivalent to the OEM product. Additionally, these Katun developer units offer easy, drop-in installation, just like the OEM product.

#### ◆ Fit and Function in Develop & Olivetti Applications

These Katun Performance™ compatible color developer units will also provide dealers with an opportunity to reduce expenses on their installed Develop INEO +258, +308 +368, +458, +558, & +658, and Olivetti d-Color MF254, MF304, MF364, MF454, MF554, & MF654 machine base.
