The Copy Service Accounting activity has never been so easy and cost-efficient!

The Easy Copy Account Software by Katun® allows copier dealers, copy shops, reprographic centers, supplies stores and similar businesses that provide copy/print services, to easily, remotely manage copier counters and accurately invoice their customers.

How Easy Copy Account software works:

- **Install Easy Copy Account software on the networked cash desk PC**
- **Scan and select the networked devices**
- **Assign the costs per quantity and per job size/colour**

1. Press the Start button on the PC to start counting
2. When Customer is done, press Stop to end the counting
3. Click on the Eye to get the statement detail
4. Customer invoice can be printed if required
