Infinite User Management

Infinite User Management by Katun is part of a powerful KDFM Premier suite of solutions that provides your customers intelligent print management tools, streamlines the cost of document output, increases document security and offers flexible cost recovery methods.
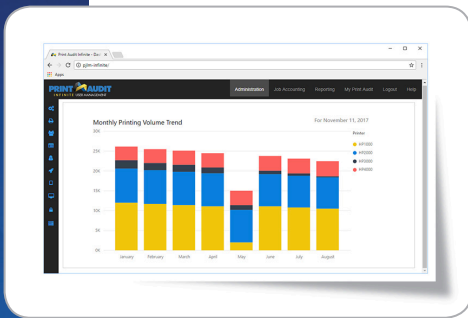

Gains for Your Customers

➤ Reduce overall printing expenses

➤ Secure printing jobs and preserve confidential data

➤ Easy mobile printing

➤ Turn cost centers into profit centers

➤ Help reduce paper waste and environmental impact

➤ Reduce IT burden

➤ Always get the right device for the right printing job

Your Benefits

➤ Win new customers with powerful device and user assessment tools

➤ Build additional recurring revenue streams by charging customers for new services

➤ Increase customer loyalty in creating new value proposition

➤ Complete training and full local support included

**Infinite User Management by Katun is powered by Print Audit.
Full web-based architecture – No Printer server required.**

User Print Analysis

➤ Automatically track 100% of your printing, including local, networked and direct-to-IP devices

➤ Save money by revealing printing inefficiencies with powerful volume analysis tools

➤ Receive audit trails for all documents created at the Embedded enabled-devices*

Print Security & Print Roaming

➤ Print a job through any device with web access (Pull Printing)

➤ Jobs are not printed until user is ready to pick them up at the device, to eliminate wasted pages and keep confidentiality

➤ Print documents wherever and whenever you need in a secured workflow

Print Governance

➤ Create costs and eco-conscious users

➤ Control cost by limiting usage by user on local printers and encouraging duplex-mode printing

➤ Set up rules to prevent confidential documents from being printed

Accurate Cost Accounting

➤ Create declining balances based on job costs, total pages, color pages or B/W pages

➤ Automate 100% of client billing processes

➤ Authenticate users by prompting for a PIN code

➤ Optional tracking for copying, scanning, and faxing jobs with Embedded feature*

Free Trial Available for 15 Days. Start Now!
