

Help make a difference to our environment

Recycle used cores & cartridges with our recycling partners

Environmentally Friendly Imaging Supplies for a Wide Range of Imaging Equipment

One of Katun's core values is to be environmentally friendly – we believe that in order for people and organizations to prosper, we must protect the environment first, as a healthy planet and a healthy community go hand-in-hand.

To help make a difference to our environment you can:

- Recycle as many used drum cores and toner cartridges as you can.
- Help minimize the impact on our planet by disposing of waste responsibly and not in landfills.
- Contribute to the availability of high-quality, cost-saving remanufactured products from Katun for use in printers, copiers and multifunction printers (MFPs).
- Participate in the circular economy.

Katun actively participates in the circular economy – by selling remanufactured imaging supplies that provide our dealer and distributor customers with high quality, cost effective replacement parts.

Therefore, we greatly encourage our customers to return all of their used cartridges and drum units to our collection partners, so we can keep providing you with remanufactured products for use in a wide range of OEM brands such as Canon, Konica Minolta, Olivetti, Ricoh, Samsung, Sharp and Xerox.

Make a difference for your business and the environment today!

KATUN®

Recycle!

Recycler! Reciclar!
Recyclein! Smaltisci!

We especially require the following used cartridges and cores -
both Katun and OEM products accepted!

Drum Units and Parts
