

Recycle Cores & Cartridges With Our Recycling Partners

Katun actively participates in the circular economy by selling remanufactured imaging supplies that provide our dealer and distributor customers with high-quality, cost-effective replacement parts. It is therefore important that you return your needed cartridges, drum and fuser units to our collection partners, so we can keep providing you with remanufactured products for use in a wide range of OEM brands.

It is important that you return your empty cores: Without them, we cannot serve you with high quality and cost attractive print supplies

To help make a difference to our environment you can:

- Recycle as many used drum cores and toner cartridges as you can.
- Disposing of waste responsibly and not in landfills.
- Contribute to the availability of high-quality, cost-saving remanufactured products from Katun for use in printers, copiers and MFPs.
- Participate in the circular economy.

Discover which products apply to the core collection program.

Look out for the Reduce, Reuse, Recycle logo on our Online Catalogue. We especially require used OEM toner cartridges and bottles, Katun and OEM parts and drum units' cores and fuser units.
