Katun now offers a “best price now - return core later” Advance Exchange Program for remanufactured HP fuser units and maintenance kits!

For USA Customers Only

Katun’s new Advance Exchange program for high-quality Katun® Performance™ fuser unit and maintenance kits provides outstanding overall value and allows dealers, distributors and office supply retailers to increase their revenue and profits for many of the most popular HP monochrome printers and MFPs. Katun, your long time partner for copier, fax, and MFP parts and supplies, now serves your printer needs as well!

Benefits

◆ **Your Best Price Now with Fast Product Availability**

The Katun Advance Exchange Program allows dealers and distributors to take immediate delivery without the need to have an existing core balance with Katun or having to return a used unit in advance. Plus, dealers can get their best price immediately – they have 45 days (from the date on the applicable invoice) to return their refurbishable fuser unit or maintenance kit to avoid core charges.

◆ **Significant Cost Savings vs. OEM Units**

Purchasing through the Katun Advance Exchange Program offers great cost savings versus purchasing a new HP fuser unit or maintenance kit. Katun® Performance™ remanufactured fuser units and maintenance kits can save dealers, distributors and office supply retailers up to 40% off the price of a new HP fuser unit or maintenance kit.

◆ **OEM Equivalent Performance**

With each Katun® Performance™ remanufactured fuser unit, selected components are replaced with new, high-quality parts, following a stringent manufacturing process, to ensure OEM-equivalent performance. In addition, each fuser unit is machine tested to ensure delivery of consistent performance and quality.

◆ **Free, Easy and “Green” Exchange of Used Fusers and Maintenance Kits**

To return the used units in a cost-effective and environmentally responsible way, customers simply place the used unit in the new unit’s shipping box, affix the included RMA label (USA customers only) to the box, and have it picked up by the designated carrier (UPS). All at no cost to you!
