

Katun® Business Color Toners for use in

## Canon iR C4080/C4580-series

### Digital Copier/Printers

Katun PN: 37275, 37276, 37277, 37278  
OEM PN: See chart on page 2

**Receive outstanding image quality for business color documents as well as significant cost savings versus the OEM toners!**

Canon's iR C4080/C4580-series machines were introduced as replacements for Canon's popular iR C3200/C3220-series applications. With well over a billion pages\* already produced over the last three years using Katun's well-received color toners for use in Canon iR C3200/C3220-series applications, it's likely dealers servicing Canon iR C4080/C4580-series machines will be equally satisfied. These toners are ideal for business color environments – where most of these applications have been placed – and provide OEM-equivalent image density, overall print quality and yields, as well as excellent color reproduction and *significant cost savings versus the OEM toners.*

### Benefits:

#### ◆ Optimized for Business Color Use

These Katun® Business Color toners are the perfect choice for departments and workgroups that primarily print business color documents, including spreadsheets, presentation slides, office memos, etc. These toners offer OEM-equivalent image density, overall print quality, fusing and yields, and are ideal for the sharp text, line details and color reproduction necessary to add emphasis to important business documents

#### ◆ Proven Performance & Satisfaction

Katun's well-received color toners for use in Canon iR C3200-series applications have been sold to thousands of satisfied dealers and distributors worldwide. These customers will likely be just as satisfied with the print quality, color reproduction, performance and overall value of these new Katun® Business Color toners for use in Canon iR C4080/C4580-series machines.

#### ◆ Improve Overall Value and Competitiveness!

Dealers using Katun® color toners will appreciate the significant cost savings versus the OEM toner, improving their bottom line profitability on existing machines, while also providing an advantage when bidding on competitive cost-per-copy contracts!

#### ◆ Commitment to Quality

These toners have passed Katun's rigorous and comprehensive testing processes to ensure high quality. Additionally, production lot samples are tested on a continuing basis to ensure product consistency.

#### ◆ Full Compatibility

These color toners, which include high-quality IC chips, have been tested and approved for forward and reverse compatibility with OEM toner. Katun® toner can be installed before or after OEM toner, with no degradation in copy quality.

\*Estimate based on number of cartridges sold times estimated yield per cartridge
