

Katun® Performance™ Color Toners for use in

## Canon I-SENSYS MF 8330/8350-series

### Printers

Katun PNs/OEM PNs: See page 2

**Receive excellent color reproduction at a significant cost savings with these toner cartridges for use in Canon printers!**

The introduction of these Katun® Performance™ toner cartridges is the latest addition to a rapidly growing line of top-quality monochrome and color toners for use in Canon machines. These Katun® Performance™ toners provide outstanding performance and excellent print quality, print after print, ensuring end-user satisfaction. In addition, these remanufactured toner cartridges are priced competitively against the OEM toner cartridges, which enables greater dealer/distributor profitability.

### Benefits:

◆ **Toner Performance You Can Trust**

This Katun® Performance™ remanufactured toner cartridge has been developed and rigorously tested to provide outstanding image quality, image density, page yields and fusing performance. You'll receive industry-leading performance from this reliable, profitable OEM alternative.

◆ **High-Quality Remanufacturing**

These remanufactured toner cartridges fit, install, and perform the same as the OEM products, which helps make the transition from OEM toner to Katun® Performance™ toner seamless for your customers. All remanufactured Katun® Performance™ toner cartridges are developed and remanufactured according to ASTM, STMC, and ISO quality guidelines.

◆ **Reduce Your Supplies Costs**

In today's economic environment, every organization is looking for cost savings and other competitive advantages. This new Katun® Performance™ toner offers you significant cost savings versus OEM supplies, without sacrificing quality or performance.

◆ **Katun's Chemical Toner Formulation Ensures Top Quality**

Katun uses chemical/polymerized toner for these applications, whereas some aftermarket companies use conventional toner. The use of chemical toner in these machines ensures image quality and color reproduction equivalent to that of the OEM toner.

## Machine Overview

In 2009, Canon introduced the I-Sensys 8330/8350-series designed for small offices and workgroups. It offers print and copy speeds up to 20 ppm for both black and color. These machines are compact in size and provide print, copy, scan and fax functions, while offering excellent print quality – with up to 2400 x 600 dpi resolution. Other key features include automatic double side printing and 5-line LCD display.

Model	Speed ppm	Intro Date	Mfg Status	Markets	Estimated Retail Price	Maximum Monthly Volume	Functions
I-SENSYS MF 8330 CDN	20	2009	Current	Europe	€ 500	40,000	Print, Copy, Scan and Fax
I-SENSYS MF 8350 CDN	20	2009	Current	Europe	€ 595	40,000	Print, Copy, Scan and Fax
