Katun products in this category.*

Katun is pleased to announce the release of these top quality toners for use in Kyocera Mita FS-series applications – Now with RFID Chip

Originally introduced by Katun without RFID chips, these toners provide the ideal combination of cost-savings and high-quality performance, with greater reliability compared to many other aftermarket toner cartridges. To enable full compatibility with managed print systems (MPS), these new Katun® Performance™ cartridges now come standard with an RFID chip, just like the OEM cartridge.

Benefits:

◆ Complete Toner Kit

Each of the new Katun® toners is sold as a toner kit - including toner cartridge, waste toner bottle and installation instructions. For optimal machine functionality, and consistency with the OEM installation instructions, Katun requires the installation of the Katun® waste toner bottle with every new Katun® Performance™ toner cartridge.

◆ Toner Performance You Can Trust

These Katun® Performance™ new-build toner cartridges utilize the same proven toner formulations that are currently available as Katun® Performance™ “no-chip” products for the same applications. They provide the same outstanding image quality, image density, page yields and fusing performance.

◆ Increase Competitiveness and Reduce Costs Without Sacrificing Quality

Taking the necessary steps to significantly reduce your supplies costs can come with a risk of low quality, increased service costs and lost customer relationships. In bid situations, costs can become an even greater concern for you and your customers. Katun provides you with the savings you must have to reduce costs, increase profitability and secure new business, without a drop-off in quality, performance, or customer satisfaction.

◆ Full MPS Functionality

Kyocera Mita dealers who currently use Katun® toner cartridges because of consistent performance, high print quality and significant cost savings, will be equally satisfied with these new Katun® toner cartridges which now include an RFID chip to allow for full MPS functionality.

Product Characteristics

Description	Model Series	Yield*	OEM Part Number	Katun Part Number
TK-312 Toner	FS-2000	12,000	1T02F80US0	38876
TK-342 Toner	FS-2020	12,000	1T02J00US0	38877
TK-322 Toner	FS-3900	15,000	1T02F90US0	38879
TK-352 Toner	FS-3920 FS-3040/3140 MFP FS-3540/3640 MFP	15,000	1T02J10US0	38880
TK-332 Toner	FS-4000	20,000	1T02GA0US0	38882
TK-362 Toner	FS-4020	20,000	1T02J20US0	38883

*Actual yield may vary depending on machine application, as well as machine, environmental and usage conditions.

Machine Overview
