

Katun® Custom Line Toner for use in

Laser Printers and MFPs

Katun expands its competitively priced monochrome printer supplies line, which offers same day shipping plus retail style packaging!

Note: Products shown represent Katun products in this category.

Katun's successful Custom Line monochrome printer supplies program is being expanded with 16 new SKUs. Combined with the current offering, this brings the total of Custom Line SKUs to 34! Whether you have an established presence but want greater product quality, reliability and overall value, or you are trying to break into the high volume printer supply business, the Katun® Custom Line will help you achieve your goals.

Benefits:

◆ Realize Significant Cost Savings

In the extremely competitive printer supplies market, price is a primary consideration, particularly with monochrome products. Katun® Custom Line printer products are priced competitively against the printer aftermarket, with even more significant savings when compared to OEM products.

◆ Trust in Katun® Quality and Reliability

Custom Line printer cartridges provide aftermarket-leading quality and performance (i.e., half tones and backgrounding), as well as OEM-equivalent image density and yields. These products are subjected to rigorous qualification and quality assurance testing in our 27,000 square foot research and development laboratory. Each Custom Line product is backed by Katun's two-year product warranty to provide aftermarket-leading print performance without sacrificing end-user print quality or satisfaction.

◆ Same Day Shipping – Get It Fast!

Orders for Katun® Custom Line Printer Products will generally be shipped the day they are received if ordered by 5:00 pm Central Standard Time; whether stocking your own warehouse or drop-shipping direct to your customer, trust Katun to deliver quickly.

Note that larger order sizes that ship via truck (pallet orders) will typically ship from our warehouse the following day to allow sufficient time for order processing.

◆ Attractive Retail-Style Packaging and Personalized Labeling Options

Custom Line products are sold in non Katun-branded professional retail packaging. Additionally, to help ensure repeat business to you, the packaging can be customized utilizing Katun's personalization option. Your customers will see your name and contact information on the package when it's time to re-order product.

Custom Line Product Offering – *New for October 2011!*
