

Katun® Performance™ Monochrome Toner for use in

Lexmark E360 and E460-series

Printers & MFPs

Katun PN: 39513 • OEM PN: E360H21A

Increase your profits and receive excellent print quality with this Katun® Performance™ monochrome toner

Note: Products shown represent Katun products in this category.

The addition of this toner cartridge expands Katun's growing product offering for use in Lexmark monochrome printers. With this Katun® Performance™ toner you can count on outstanding performance, excellent print quality and high levels of customer satisfaction. This product provides an excellent value: immediate and long-term cost savings without sacrificing quality.

Benefits:

◆ **Performance you can trust**

This Katun® Performance™ remanufactured toner cartridge has been developed and rigorously tested to provide outstanding image quality, image density, page yields and fusing to ensure compatibility with the OEM toner. Katun's testing and evaluation protocols ensure industry-leading performance – giving you a reliable and profitable alternative to high-cost OEM toner.

◆ **Quality remanufacturing process**

This remanufactured toner cartridge fits, installs, and performs similar to the OEM product, which helps make the transition from OEM toner to Katun® Performance™ toner seamless for your customers. Each cartridge is developed and remanufactured according to strict Katun quality guidelines to ensure OEM-equivalent performance.

◆ **Enhanced profitability**

While introduced in late 2008 by Lexmark, the E360 and E460-series are still part of Lexmark's current monochrome printer portfolio. This Katun® Performance™ toner provides dealers immediate and long-term profit improvement opportunities on these popular applications.

◆ **Expanding line of monochrome toners for use in Lexmark applications**

Katun is continuing to expand its line of competitively priced monochrome toners for use in many of the most popular Lexmark printers and MFPs. Katun has the high-quality toner you require at an affordable price.

Machine Overview

In late 2008, Lexmark introduced the E360 and E460-series printers geared towards mid-sized workgroups that required fast network-ready monochrome printers. These machines offered reliable performance while also providing exceptional print quality, above average productivity, low cost per copy and good overall value compared to printers offered by other OEMs at the time.

Model Series	Speed (PPM)	Intro Date	Mfg Status
E360	40	Q4-2008	Current
E460	40	Q4-2008	Current

Product Characteristics

Model Series	Yield*	OEM Part Number	Katun Part Number
