*Actual yield may vary depending on machine applications, machine condition, and usage conditions. NOTE: OEM warranty is for 50,000 pages, but stated yield is higher.

**This Katun Performance™ black drum unit can achieve page yields up to 150,000 when running in “continuous run” mode. As drum yield is determined by number of rotations, shorter copy/print runs during “start/stop” mode, will result in decreased drum yield.
