

MPS Profit Calculator

To run a great MPS service, you need to land the business first – and at the right price to ensure profit. This quick, simple and comprehensive tool enables you to analyze a customer’s devices and projected parts and supplies usage, then create a professional MPS proposal that ensures profitable margins – and helps you close the sale.

The MPS Profit Calculator enables you to

- ▶ Analyze the device data collected from your customer's network
- ▶ Determine costs and margins
- ▶ Create a presentation

Quickly – at the touch of a button!

MPS Profit Calculator

Designed for the dealer that requires full control of all elements of the MPS process and has the capability to manage pricing. Includes three users with the option of adding additional users.

- ▶ Protect your profit margins
- ▶ Turn your MPS sales reps into “selling machines!”
- ▶ Comprehensive database contains industry standards for parts & supplies usage
- ▶ Quick web access with easy & intuitive interface
- ▶ Includes proposal templates & contracts

See our detailed program comparison on page 2.
