

Remanufactured HP Fuser Assemblies and Maintenance Kits

High quality products and now **SIGNIFICANTLY** lower prices!

If you're looking for ways to reduce the cost of maintaining your fleet of HP printers and multifunctional devices, Katun fuser assemblies and maintenance kits are the answer. We've just reduced prices on our entire product range! Your pricing will not be dependent upon a core return. We still provide return labels for cores to be returned free of charge, but there is no timeline, fees or charges to get the very best pricing we have to offer.

Katun remanufactured fuser assemblies give you a cost-effective, high quality replacement option, while Katun maintenance kits provide you with the fuser assembly plus everything else you need to keep your HP devices running smoothly, including various feed & pickup components.

Check out page two of this flyer for a current list of products.
