

Do You Recycle?

We Do!

NEW – Two Eco-Friendly products for use in Konica Minolta applications made from greater than 95% recycled plastics.

Katun is proud to introduce a sustainability break-through for the aftermarket imaging industry!

Katun actively participates in the circular economy by reusing materials and remanufacturing products that would otherwise be declared waste. In addition to this, and to further help protect the environment, we have launched an exclusive aftermarket industry-first toner and waste toner container for Konica Minolta bizhub C364/C284/C224-series machines made from more than 95% recycled plastics!

Katun Access™ Eco-Friendly Toners and Waste Toner Container for use in Konica Minolta bizhub C364/C284/C224-series

- Excellent Performance
- Equivalent Fit/Function
- Katun Tested Quality
- Eco-Friendly

LOOK OUT - more lines being added to the Katun® Eco-Friendly range soon!

KATUN®

Why Choose Recycled Plastic Products?

Europe produced nearly 58 MILLION tonnes of plastic in 2019.*

By 2050 plastics could account for 20% of oil consumption, 15% of greenhouse gas emissions, and there could be more plastics than fish in the sea!^

Since 2006, the amount of plastic waste sent to recycling has doubled. However, 25% of plastic post-consumer waste was still sent to landfill in 2018.+

Katun estimates that 150KG of plastic is diverted from landfill for every 1000 Katun Eco-Friendly toner cartridges for use in Konica Minolta Bizhub C364 produced.

Let's Create a Better Environment for our Future – Choose Recycled.
