

# Katun Quality

# It's in the Lab

## Our Lab

### People

Katun lab technicians have real-world, practical field experience, and training from the world's top OEMs. Our product development staff, including engineers, scientists and IP attorneys, use their industry knowledge, education, and passion for excellence to ensure products deliver on our brand promise.

### Processes

Product development and testing protocols have been developed and perfected over the past three decades; we strictly enforce adherence to quality standards and processes. Products evaluated in the lab are subjected to a full battery of tests to evaluate life/yield, OEM compatibility, and more.

### Performance

Ultimately, the Katun lab ensures that our products deliver consistent, reliable performance, excellent image quality – and the industry's best values. Millions of dollars have been invested in sophisticated diagnostic equipment, ensuring precise measurement and accurate analysis.

## Katun Quality

For more than 36 years Katun has been focused on producing reliable, high-quality products that deliver excellent performance and unsurpassed value. Enabling you to maintain high levels of customer satisfaction is our goal; we strive to earn your trust every day.

Providing you with consistently high-quality products requires an uncompromising commitment to excellence, synergistic relationships with world-class manufacturers, and significant investments in product development and testing. At the core of our commitment is our 27,200 sq. ft. (2527 sq. m.) state-of-the-art research and development laboratory in Minneapolis, Minnesota, USA, where products are tested to ensure high quality and consistent performance. The lab, which features hundreds of imaging devices, millions of dollars in sophisticated testing and diagnostic equipment, and a staff of experienced product development personnel, is dedicated to ensuring you and your customers are completely satisfied with Katun products.

We were founded in 1979, and quickly became a world leader in OEM-alternative products. In fact, more than 50,000 imaging supply dealers have put their trust in Katun quality since our inception.

More than any other factor, quality separates Katun from other companies seeking to become your alternative parts-and-supplies partner. **Katun quality – it's in the lab.**
