

Reliable Katun Parts

Ensure Consistent Performance and Solid Profitability

NEW!

Katun recently introduced a variety of parts for a wide range of applications from Konica, Kyocera, Ricoh, Sharp and Toshiba. These products, including cleaning rollers, upper fuser rollers, lower pressure rollers and picker fingers – continue the well-established Katun® tradition of providing dealers and distributors with OEM-equivalent parts performance at significant cost savings.

Parts performance is critical in preventing costly unscheduled service calls and maintaining end-user customer satisfaction, and that's why tens of thousands of office equipment dealers have depended on Katun parts for nearly 40 years.
