

Katun Performance™ Color Toners for use in

HP Color LaserJet Pro M254/280/281

Printers & MFPs

Katun PN: See page 2 • OEM PN: See page 2

These Katun color toners provide outstanding print quality and performance in HP Color LaserJet Pro M254/280/281 printers!

Katun introduces a group of new color printer toners to our comprehensive line of high-quality Katun Performance™ toners for use in HP printers. These remanufactured Katun color toners provide outstanding performance, remarkable print quality and significant cost savings. As the printers are still being currently sold by HP, these Katun toners provide dealers with immediate and long term cost savings and significant profit opportunities.

Benefits:

◆ Choose Katun Toner for Consistent Quality and Performance

These new color toners have been developed and rigorously tested to ensure complete compatibility with the OEM toner and to provide outstanding:

- Image quality and color reproduction
- Yields
- Fusing performance

◆ Reduce Your Supplies Costs

Gain a competitive advantage and improve your bottom line. These toners offer excellent performance at a significant cost savings, which means you can increase profits without sacrificing quality.

◆ A Smooth Transition from OEM Toner

These remanufactured toner cartridges fit, install, and perform similar to the OEM products, which helps make the transition from OEM toner to Katun Performance™ toner seamless for your customers. These toner cartridges are developed and manufactured according Katun's strict quality guidelines to ensure consistent quality and performance.

◆ A Growing Line You Can Count On

Katun offers a comprehensive line of toner cartridges for use in the most popular HP monochrome and color printers and multifunctional equipment, enabling you to meet the printing supplies needs of all your customers.

Machine Overview

Introduced in late 2017, this series of 22 ppm printers and MFPs is ideal for use in small or home offices that need full feature color printing in an affordable device. In addition to providing excellent output, these devices feature a highly reliable engine, fast first print times and a user-friendly design with a low total cost of ownership.
